

This Side Up – Stage Plot

This Side Up PA Equipment & Lighting Requirements

- 6 Vocal mics with stands
 - 5 Instrument mics, 1 for each guitar amp, 1 for each horn - (TSU can provide wired clip-on mics for horns for convenience)
 - 7 Direct Boxes – 1 Keyboards, 1 Guitar Synth, 1 Acoustic Guitar, 4 Electronic Drums (Kick, Snare, Toms, Cymbals)
 - 2 Line Signals – The Bass amp has a low Z out; Guitar Processor has a balanced output line-level signal
 - 5 (Min.) Monitors with a minimum of 5 separate monitor mixes (7 Monitors with 7 separate mixes preferred)
 - A professional lighting system providing lighting for the stage and dance floor
- This Side Up runs everything through the PA system to keep stage volume low and full volume control through the “Front of House”
- Recommended stage size 12' deep x 24' wide - Minimum stage size 10' deep x 20' wide
