

# This Side Up Stage Set Up

## **This Side Up PA Equipment and Lighting Requirements:**

- 1) 6 Vocal mics w/stands
- 2) 3 Instrument mics, 1 for each electric guitar amp
- 3) 4 Direct boxes – 1 Keyboards, 1 Acoustic guitar, 2 Electronic Drums (1 for the kick Drum and 1 for all other drums)
- 4) The Bass amp has a Low Z output to connect directly to the mixing board
- 5) 6 Monitors with a minimum of 2 separate mixes (4 separate mixes preferred)
- 6) A professional lighting system providing lighting on the band and the dance floor

This Side Up has every instrument run through the PA system for “Front of House” volume control and to keep stage volume low. This allows us to play at the appropriate volume for the situation.
